DETAILED ACTION

Claims 1-3, 6,7, 9, 10, 14 and 15 are currently pending in the instant application. Applicants have cancelled claim 14 in an amendment filed on February 20, 2007.

I. *Response to Arguments*

Applicant's arguments, filed February 20, 2007 with respect to the rejection of claims 9,10 and 15 under 35 USC 112, first paragraph as failing to comply with the enablement requirement have been fully considered and are partially persuasive. The rejection of claim 15 under 35 USC 112, first paragraph as failing to comply with the enablement requirement has been withdrawn.

Applicants traverse the rejection of claims 9 and 10 under 35 USC 112 as failing to comply with the enablement requirement. Applicants argue that claims 9 and 10 are fully enabled by the present specification. Applicants state that at page 12 of the specification, lines 34-36, it is taught that the compound of formula I inhibit serotonin reuptake and are 5-HT_{1A} agonists. At page 11, it is taught that the compounds thus are useful to treat various diseases. However, the diseases that these compounds can possibly treat include illnesses of the central nervous system (i.e. Alzheimer's disease) and schizophrenia. As mentioned in the previous Office Action, there are only a few known drugs that are used in the treatment of Alzheimer's disease and the prior art shows that it is difficult to treat Alzheimer's disease. Also, by applicant claiming a method of inhibiting serotonin reuptake and a method of achieving a 5HT_{1A} antagonistic effect, it covers the diseases that have been shown to work through these

mechanisms in addition to the diseases that have not even been discovered that work through these mechanisms. Applicants' specification does not show full enablement for a method of inhibiting serotonin reuptake and a method of achieving a 5HT1A antagonistic effect as fully discussed in the previous office action on pages 2-6.

Therefore, the rejection of claims 9 and 10 under 35 USC 112, first paragraph is maintained.

II. Conclusion

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
